

ASTROCAB WELFARE UNIT

The Astrocab Demountable Welfare Unit is the perfect partner for our range of decontamination airlocks. Allowing your personnel to be able to change from their normal clothing and store their valuables, sit and relax during shifts and enable you to fulfil your obligations under the Construction (Design and Management) Regulations 2015.

This demountable welfare unit comes complete with all the necessary accessories to enable you to comply with Construction (Design and Management) Regulations 2015. Just add a microwave, kettle, heater and drinking water (which we can provide if needed) and you are ready to go.

The Astrocab Welfare Unit has been designed to go to places other welfare units cannot reach e.g. in an underground car park, on a disused floor of an office refurbishment project, close to or adjacent to where the work is being carried out. The unique design of the unit means it can be assembled in around 1 hour with no tools. It is an ideal solution for larger jobs where there are space constraints for mobile units.

LOCKERS,
TABLE &
HOOK/MIRROR
PLATE

KITCHEN SINK
&
KITCHEN

Accessories are simply placed where you need them via our unique toggle system, the table, kitchen worktop, plug points, hook/mirror plates, sink unit and lockers are all simply clipped into position.

Remember when you have finished your work in that area, the unit can be simply dismantled and moved to another floor or another site altogether. The unit flat packs into the back of a panel van, so no need for large transportation vehicles. Panels are constructed from ABS sheets bonded together with an insulated core, making a durable rot free structure 33mm thick, providing both structure and warmth.

Should you require temporary toilet facilities, we can also supply a cartridge based toilet housed in a separate cabin (which can be linked if required).

mECaNaKa Limited manufacture other cabin based products, like site office, showers, drying/changing rooms and a full range of decontamination units. Company Logos can be engraved onto wall panels at no additional cost.

Need something slightly different, speak to one of our design team, who will be happy to discuss your individual requirements.
