

ASTROCAB WELFARE WASHROOM

The Astrocab Demountable Welfare Washroom provides changing, drying, showering and toilet facilities, all in one. With the ability to go where you need it, it gives new meaning to the term convenience. The unique design of the unit means it can be assembled in around 40 minutes with no tools. The toilet, shower mixer, washbasin, hook/mirror plates, toilet roll holder and lighting units simply plug into place on the accessory wall panels. The panels are constructed from ABS sheets bonded together with an insulated core, making a durable rot free structure 33mm thick, providing both structure and warmth.

The toilet facilities are provided by a state of the art cassette type toilet which removes the need to connect to mains sewer or be positioned to allow for emptying by bowser pump units. This insures you are able to put the Astrocab Welfare Washroom right where you want it.

Additional cassette tanks are available if required.

Should you require other welfare facilities, [mECaNaKa Limited](http://www.mecanaka.co.uk) manufacture a welfare unit which provides the necessary facilities to enable you to comply with the Construction (Design and Management) Regulations 2015. (Please see separate information leaflet).

Should you need a supply of hot water to your Astrocab Welfare Washroom, look no further than the Aquarius Portable Hot Water System. (Please see separate information leaflet).

[mECaNaKa Limited](http://www.mecanaka.co.uk) also manufacture other cabin based products, like site office, showers, drying/changing rooms and a full range of decontamination units.

Company logos can be engraved onto the wall panels at no additional cost.

Need something slightly different, speak to one of our design team, who will be happy to discuss your individual requirements.
